

The INTERMAS GROUP promotes the respect and preservation of the environment and, the minimization of the environmental impact throughout all the value chain, from its facilities and production processes to the life cycle of its products.

To reduce our environmental footprint and in favour of a sustainable development, the INTERMAS GROUP is committed to:

- Protect the environment, biodiversity, and ecosystems through responsible strategic planning.
- Promote the sustainable use of resources, mitigation, and adaptation to climate change.
- Preserve the environment from contamination by preventing, minimizing, and monitoring all environmental aspects, especially those that are harmful or potentially harmful.
- Manage their processes in accordance with the criteria of environmental sustainability and promoting continuous improvement in all its stages to further benefit environmental performance.
- Comply with the legal requirements and regulations applicable in each of the regions where our facilities are located.
- Favour and support the environmental culture of its employees and collaborators through communication, training, and awareness actions.

To develop these commitments, the Senior Management of the INTERMAS GROUP defines the goals of all organizations. Achieving these objectives will be ensured through the involvement of all the people that are part and form the INTERMAS GROUP.
